

REMARKS

Applicant has reviewed the Advisory Action of February 19, 2003 in conjunction with the Office Action of November 26, 2002. The claims stood rejected under 35 U.S.C. § 102(e) as being anticipated by Myers et al. Applicant, in response to the Final Office Action, filed a declaration under 37 C.F.R. § 1.131 to show proof of conception prior to the filing date of the Myers et al. reference. The Patent Office, in the Advisory Action, felt that there was no actual evidence of conception.

Applicant herein submits a supplemental declaration signed by the inventor with a screen shot of the properties tab of the document submitted as Exhibit B to the previous declaration. This shows that the memo was written, or at least begun, as early as March 18, 1999, prior to the priority date of the Myers et al. reference.

Applicant requests that the two declarations be considered, along with the amendments filed January 10, 2003. When these declarations are given their proper weight, the Myers et al. reference is not available as prior art and the claims are in a condition for allowance. Applicant solicits claim allowance at the Examiner's earliest convenience.

Respectfully submitted,

WITHROW & TERRANOVA, P.L.L.C.
